If you're a wrestler, former wrestler, parent of a wrestler or a wrestling fan, the Sports Illustrated story and video on Cornell's Kyle Dake is a must read and view.

Named their male college athlete of the year, the magazine offers an up-close and personal look at the four-time NCAA national champion and four-time Academic All-American. Dake was the first wrestler in the history of the NCAA tournament to win it four times at four different weight classes but how he did it is as impressive as the feat itself.

Read the story and watch the video. Kyle Dake makes us all proud.

"Every wrestler should read the story and watch the video - then watch it again and again."
